### CLASS B RECYCLING CENTER GENERAL APPROVAL

Under the provisions of N.J.S.A. 13:1E-1 et seq. and N.J.S.A. 13:1E-99.11 et seq., known as the Solid Waste Management Act and New Jersey Statewide Mandatory Source Separation and Recycling Act, respectively, and pursuant to N.J.A.C. 7:26A-1 et seq., known as the Recycling Regulations, this approval is hereby issued to:

#### **Bayshore Recycling Corp.**

Facility Type:	Recycling Center for Class B Materials
Block & Lot Nos.:	Block 41.03 & Lots 3.02, 3.18 & 4.02 Block 51 & Lots 1, 1.02, 1.18, 2, 2.02 & 2.03 Block 52 & Lot 1
Municipality:	Township of Woodbridge
County:	Middlesex
Facility ID No.:	132397
Permit No.:	CBG210002

This General Approval is subject to compliance with all conditions specified herein and all regulations promulgated by the New Jersey Department of Environmental Protection (Department).

This General Approval shall not prejudice any claim the State may have to riparian land nor does it allow the registrant to fill or alter, or allow to be filled or altered, in any way, lands that are deemed to be riparian, wetlands, stream encroachment or flood plains, or within the Coastal Area Facility Review Act (CAFRA) zone or are subject to the Pinelands Protection Act of 1979, nor shall it allow the discharge of pollutants to waters of this State without prior acquisition of the necessary grants, permits, or approvals from the Department.

Expiration Date

### Scope of Approval

This General Approval (approval), along with the referenced application documents herein specified, shall constitute the sole approval of Recycling Center operations for Class B Recyclable Material (concrete, asphalt, brick, block, slag (on a case by case basis), glass cullet, wood (untreated and unpainted), potable water treatment residuals, carbon filtration media, street sweepings and petroleum contaminated soil) storage and process center by **Bayshore Recycling Corp.** located in the Township of Woodbridge, Middlesex County, New Jersey. Any registration, approval or permit previously issued by the Division of Sustainable Waste Management, or its predecessor agencies, for the specific activities as described below and as conditioned herein, is hereby superseded.

### Regulated Activities at the Facility

Conditions 1 through 42 of this general approval are conditions applicable to all New Jersey recycling facilities. Conditions 43 through 64 of this general approval are applicable to New Jersey recycling facilities that receive, store, process, or transfer Class B material. Conditions 65 through 78 of this general approval are specific to operations related to petroleum contaminated soils, slag, potable water treatment residuals, carbon filtration media, and street sweeping Class B recyclable materials. Condition 79 of this general approval is a condition specific to operations related to concrete, asphalt, brick, block, wood (untreated and unpainted), and glass cullet Class B recyclable materials.

### Facility Description

The facility is a Class B recycling center operated by the Bayshore Recycling Corp. The recycling center is located at 75 Crows Mill Road/100 Bayview Avenue on Block 41.03 & Lots 3.02, 3.18 & 4.02, Block 51 & Lots 1, 1.02, 1.18, 2, 2.02 & 2.03, and Block 52 & Lot 1 in the Township of Woodbridge, Middlesex County. This regional recycling center is authorized to receive concrete, asphalt, brick, block, slag (on a case-by-case basis), glass cullet, wood (untreated and unpainted), potable water treatment residuals, carbon filtration media, street sweepings, and petroleum contaminated soil from demolition contractors, municipalities, manufacturers, gasoline stations, homeowners and sites remediated for petroleum contamination. All processed soil will be used for beneficial use projects, brownfields, landfill caps, and construction projects. The recycling center is authorized to receive, store, process, or transfer the Class B recyclable materials twenty-four (24) hours per day, Monday through Sunday.

Petroleum contaminated soil shall be sampled either at the point of generation or at the recycling center for the petroleum contaminated soils processing operation. The sampling results shall be used to determine the maximum contaminant feed rate or maximum petroleum contaminant concentration for the processing equipment.

Prior to the acceptance of potable water treatment residuals, carbon filtration media and street sweepings the facility shall have received analytical results along with a signed certification from the generator certifying the material meets the Department's soil remediation standards for ingestion-dermal and inhalation exposure pathway.
