HAZARDOUS WASTE TRANSPORTER PERMIT

CT-HW-307

PERMITTEE NAME	PERMITTEE ADDRESS	TELEPHONE NUMBER
Freehold Cartage, Inc.	825 Highway 33 Freehold, NJ 07728	(732) 462-1001
EPA ID NUMBER	**EFFECTIVE DATE**	**EXPIRATION DATE**
NJD054126164	January 15, 2013	June 30, 2017

TRANSPORTER X SPILL CLEAN-UP CONTRACTOR

A. Authorized Waste Types:

CONNECTICUT REGULATED WASTE:
Waste PCB's, Waste Oil, Waste Water Soluble Oil, Waste Chemical Liquids
HAZARDOUS WASTE (EPA WASTE NO. AS PER 40 CFR 261):
All Types of Hazardous Waste as per 40 CFR 261

B. Vehicles Permitted to Transport Waste:

The Permittee is authorized to use only those vehicles registered, as indicated on "Attachment B: Vehicle List," of Permit Application. 201208020. Please refer to Section E.1. for the procedures for registering additional vehicles with the DEEP.

RECEIVED
MAY 15 2009
FREEHOLD CARTAGE

C. Conditions of this Permit:

This Permit incorporates by reference The Connecticut Waste Transporter Permit Application (Application No. 200900456) completed by the Permittee and received by the Bureau of Materials Management and Compliance Assurance on February 17, 2009.

This permit does not authorize the transfer of hazardous waste from one vehicle to another or from one mode of transportation to another.

1. A copy of this permit shall accompany each vehicle identified in this permit whenever it is being used to transport waste.

2. The transporter permit number shall be displayed on the sides and rear of each vehicle identified in this permit in letters and numbers of contrasting color and at least four inches (4") high.

3. All wastes authorized to be transported by this permit shall be transported in compliance with all applicable provisions of Title 49 of the Code of Federal Regulations.

4. The Permittee shall not store, transfer, treat, discharge, dispose or otherwise manage waste at any site in Connecticut unless such site has written approval from the Commissioner for such activity.

5. The Permittee shall determine total halogen content in accordance with RCSA Section 22a-449(c)-119(a)(2)(Y) through (BB), incorporating 40 CFR 279.44 with specified changes. Used oil that contains more than 1,000 ppm total halogens is presumed to be a hazardous waste and shall be managed as such unless and until this presumption is rebutted as specified in RCSA Section 22a-449(c)-119(a)(2)(BB). The Permittee shall maintain a record of all testing performed in accordance with this paragraph. Records shall include the generator's name, volume of used oil accepted, date of the used oil pick-up, the total halogen concentration determined to be in the used oil, and the results of any testing to rebut the presumption that used oil containing more than 1,000 ppm total halogens is a hazardous waste.

6. The Permittee shall maintain a record of all waste shipments rejected at the designated treatment, storage, or disposal facility. Such records shall include the date of rejection, the name and address of the generator(s) making up the shipment, a description of the waste rejected, the reason for the rejection and a description of the subsequent disposition of the rejected waste.

7. The Permittee may accept "on-specification used oil fuel" from a generator and subsequently manage it as such provided the Permittee: 1) Can demonstrate that the person claiming that used oil meets the used oil fuel specifications has complied with the used oil fuel marketer notification requirements and are otherwise subject to RCSA Section 22a-449(c)-119(a)(2)(RRR) through (VVV); and 2) has obtained copies of certified laboratory analysis performed in accordance with the test methodology specified in RCSA Section 22a-449(c)-119(a)(2)(G) documenting that the used oil qualifies as an on-specification used oil fuel. In addition, the laboratory analysis shall demonstrate that the used oil has a fuel value determined to be greater than 5000 BTU/lb utilizing ASTM Method D808-95, D2015-96, D3286-96, (as may be revised) or an alternative method approved by the Commissioner. Laboratory analysis used to document that a used oil meets the used oil specification shall be representative of the used oil being accepted by the Permittee. The Permittee shall keep copies of laboratory analysis and other information used to document that used oil meets the used oil specification for a minimum of three years from the date the Permittee accepts an on-specification used oil fuel from a generator.

8. The Permittee shall not sample used oil for the purpose of performing analysis to determine if a used oil meets the specification of RCSA Section 22a-449(c)-119(a)(2)(G), incorporating 40 CFR 279.11 with specified changes, at a location other than the site of generation of the used oil, without first obtaining a permit pursuant to Connecticut General Statute Section 22a-454(a) for such activity.

D. Reporting and Inspection Requirements:

1. Monthly Report Forms for each calendar month of the permit period shall be filed with the Director of the Bureau of Materials Management and Compliance Assurance/Waste Engineering and Enforcement Division of the Connecticut Department of Environmental Protection (CTDEP) on or before the 10th day of the following month. Monthly Reports shall specify:

   a. all Connecticut Regulated Waste and/or unmanifested Hazardous Waste transported; or

   b. that all Hazardous Waste transported was manifested; or

   c. that no waste was transported.

2. By March 1 of each year an original certificate of insurance showing policy renewal shall be submitted to the CTDEP.

3. For transporters located in Connecticut, periodic inspections as per 49 CFR 396.17(a) shall be performed on all vehicles listed in this application. In addition, each tank vehicle shall also be inspected by the local fire marshal annually. Copies of the inspection reports shall be submitted to the CTDEP upon request.

4. The Permittee shall allow the CTDEP to conduct periodic inspections to ensure permit compliance. These may include but not be limited to investigation of records, inspection and sampling of facilities and vehicles, photographs (including aerial), or other means deemed necessary for documentation of the inspection.

5. In the event of spillage or uncontrolled discharge while collecting, transferring and/or transporting any waste in or through the State of Connecticut, the CTDEP Oil and Chemical Spill Response Division shall be notified immediately by telephoning (860) 424-3338 or (860) 424-3333.

E. Vehicle Registration and Waste Modifications:

1. The Permittee shall only transport authorized waste types using vehicles registered with the CTDEP. Vehicles that need to be added to the permit shall be identified on a

Transporter Permit Vehicle Registration Form(s) and submitted to the CTDEP before using such vehicle(s). The effective date of the registration will be noted by CTDEP on the registration form.

2. This permit may be modified to include additional waste types. The Permittee must submit a properly completed Application for a Waste Type Modification and the required fee to the address listed on the application.

F. Special Requirements for Permittees who act as Brokers:

1. Permittees who act as brokers and include independent owner/operators on their permit shall be responsible for ensuring:

   a. that these owner/operators are in compliance with permit conditions;

   b. that all vehicles are in compliance with all state and federal regulations;

   c. that all drivers have the proper emergency response training;

   d. that all drivers engaged in the transportation of wastes which are hazardous materials are in compliance with and familiar with all applicable requirements of Title 49 of the Code of Federal Regulations; and

   e. that these owner/operators have the required minimum levels of liability insurance.

G. General Requirements:

1. The Permittee shall comply with all instructions issued by the Commissioner of the CTDEP or the Commissioner's designee when deemed necessary to protect the water, land and/or air of the State from pollution.

2. Violation of any provisions of this permit is subject to civil and/or criminal penalties as provided by Section 22a-6(b), 22a-131, 22a-131a and 22a-438 of the Connecticut General Statutes.

CT-HW-307

In compliance with all applicable provisions of the Connecticut Hazardous Waste Management Regulations and Section 22a-454 of the Connecticut General Statutes, you are hereby authorized to transport the waste types specified in this permit, only on the vehicles listed (see page 1).
